Title Index

Acoustic Coupler Effects on Speech Audiometric Scores using a CROS Hearing Aid, Jetty, Albert J., and William F. Rintelmann: 13, March, 101-114.

Anchoring and Sequence Effects for the Category Scaling of Stuttering Severity, Young, Martin A.: 13, June, 360-368.

Articulatory Training of the Deaf Using Low-Frequency Surrogate Fricatives, Guttman, Newman, et al.: 13, March, 19-29.

Auditory Training and Speech Discrimination, Bode, Daniel L., and Herbert J. Oyer: 13, December, 839-855.

Coding Medium and Word Recall by Deaf and Hearing Subjects, Odom, Penelope B., et al.: 13, March, 54-58.

Comment on "Ephphatha, or Some Advice to Stammerers," Weiss, Deso A.: 13, June, 439.

Comment on "Language Deficiency of Disadvantaged Children," Holland, Audrey: 13, June, 440-441.

Comment on "The Relationship Between Articulatory Deficits and Syntax in Speech Defective Children," McNutt, James C., and Robert A. Keenan: 13, September, 669-670.

Comment on "Sociological and Psychological Factors Associated with Hearing Loss," Graunke, W. Lloyd: 13, June, 441-442.

Comment on "A Standardized Method for Obtaining a Spoken Language Sample," Griffith, Jerry: 13, June, 438-439.

A Comparison of the Results of Pressure Articulation Testing in Various Contexts for Subjects with Cleft Palates, Van Demark, D. R.: 13, December, 741-754.

Comparison of Sentence Identification and Conventional Speech Discrimination Scores, Speaks, Charles, et al.: 13, December, 000-000.

Comparison of Seven Systems for High-Frequency Aid-Conduction Audiometry, Myers, Cecil K., and J. Donald Harris: 13, June, 254-270.

Comparison of Two Approaches to Behavior Observation Audiometry, Weber, Bruce A.: 13, December, 823-825.

Consistency of Judgments of Articulatory Productions, Irwin, Ruth Beckey: 13, September, 548-555.

Course of Nonstutterers' Disfluency Adaptation During 15 Consecutive Oral Readings of the Same Material, Silverman, Franklin H.: 13, June, 382-386.

Decrease in Stuttering Frequency as a Function of Continuous and Contingent Forms of Auditory Masking, Webster, Ronald L., and Michael F. Dorman: 13, March, 82-86.

Direct Measurement of the Listening of Hearing-Impaired Children, Mira, Mary: 13, March, 65-73.

Distribution of Instances of Disfluency in Consecutive Readings of Different Passages by Nonstutterers, Silverman, Franklin H.: 13, December, 874-882.

Earmold Influence on Aided Speech Identification Tasks, Northern, Jerry L., and Karl W. Hattler; 13, March, 162-172.

Effect of the Earmold on Speech Intelligibility in Hearing Aid Use, Hodgson, William R., and Charles Murdock, Jr.: 13, June, 290-297.

Effect of Stimulus Duration on Localization of Direction of Noise Stimuli, Thurlow, Willard R., and James R. Mergener: 13, December, 826-838.

The Effect of the Verbal Stimulus Words *Wrong*, *Right* and *Tree* on the Disfluency Rates of Stutterers and Nonstutterers, Cooper, Eugene B., et al.: 13, June, 239-244.

Effect on Stuttering of Changes in Audition, Wingate, M. E.: 13, December, 861-873.

The Effects of Delayed Auditory Feedback on a Speech-Related Task in Stutterers; Stark, Rachel E., and Bruce R. Pierce: 13, June, 245-253.

Effects of Simultaneous and Successive Stimulus Presentation on Visual Discriminations by Aphasic Patients, Engmann, Deedra L., and Robert H. Brookshire: 13, June, 369-381.

EMG of Pharyngoesophageal Musculature During Alaryngeal Voice Production, Shipp, Thomas: 13, March, 184-192.

Evoked Cortical Responses to Stimulus Change, McCandless, Geary A., and Darrell E. Rose: 13, September, 624-634.

An Experimental Analogue of the Anxiety-Stuttering Relationship, Toomey, George L., and Murray Sidman: 13, March, 122-129.

Experiments on the Use of Touch-Tone® Telephone as a Communication Aid for the Deaf, Nelson, John R.: 13, March, 30-36.

Factors in the Effectiveness of Articulation Therapy with Educable Retarded Children, Sommers, Ronald K., et al.: 13, June, 304-316.
Follow-up Report on Modified Earpieces and CROS for High-Frequency Hearing Losses, Dodds, Elizabeth, and Earl Harford: 13, March, 41-43.
Habituation and Dishabituation of the Averaged Auditory Evoked Response, Weber, Bruce A.: 13, June, 387-394.
Hearing Aid Efficiency in a Competing Speech Situation, Tillman, Tom W., et al.: 13, December, 789-810.
The Intelligibility of Speech by Hearing Aids on Inductance Loop and Microphone Modes of Signal Reception, Vargo, Steven W., et al.: 13, March, 87-91.
Laryngeal Correlates of Frequency Change: A STROL Study, Hollien, Harry, and Robert F. Coleman: 13, June, 271-278.
Latency of Echoic Verbal Responses by Three-Year-Old Children, Saxman, John H., and Warren H. Fay: 13, June, 232-238.
Laterality Differences in the Auditory Feedback Control of Speech, Abbs, James H., and Karl U. Smith: 13, June, 298-303.
Lateral Pharyngeal Wall Movement During Speech Production, Minifie, Fred D., et al.: 13, September, 584-594.
Lip and Jaw Coarticulation for the Phoneme/æ/, Amerman, James D., et al.: 13, March, 147-161.
Lipreading Performance as Related to Measurements of Vision, Hardick, Edward J., et al.: 13, March, 92-100.
Listener Preference for Selective vs Flat Amplification for a High-Frequency Hearing-Loss Population, Thompson, Gary, and Franz Lassman: 13, September, 670-672.
Low-Frequency Vowel Formant Discrimination in Hearing-Impaired Listeners, Pickett, J. M., and J. Mártony: 13, June, 347-359.
The Maintenance of Diagnostic Information Imparted by Three Methods: One Year Later, Marshall, Nancy R., and Steven G. Goldstein: 13, June, 447-448.
Measurement of Hearing Handicap, Speaks, Charles, et al.: 13, December, 768-776.
Measurement of Visual Speech Comprehension, Nielsen, Henning Birk: 13, December, 856-860.
Middle Ear Impedance Measurements, Burke, Kenneth S., et al.: 13, June, 317-325.
Nasal Airflow Characteristics During Speech in Prosthetically Managed Cleft Palate Speakers, Lubker, James F., et al.: 13, June, 326-338.
Narrow-Band Noise Audiometry for Hard-to-Test Patients, Sanders, Jay W., and Anne Forrest Josey: 13, March, 74-81.
A Note on the Degree of Adaptation by Stutterers and Nonstutterers During Oral Reading, Silverman, Franklin H.: 13, March, 173-177.
The Occlusion Effect in Unilateral Functional Hearing Loss, Thompson, Gary, and Marie Denman: 13, March, 37-40.

A Revised List for the Estimation of Dysarthric Single Word Intelligibility, Tikofsky, Ronald S.: 13, March, 59-64.
The Role of Practice and the Observation of Practice in Speech-Sound Discrimination Learning, Ritterman, Stuart I.: 13, March, 178-183.
Sensitivity of the Tongue to Electrical Stimulation, Pleasonton, Anna K.: 13, September, 635-644.
Sensorineural Hearing Loss and Upward Spread of Masking, Martin, Ellen S., and J. M. Pickett: 13, June, 426-437.
The Significance of Intra- and Intersentence Pause Times in Perceptual Judgments of Oral Reading Rate, Lass, Norman J.: 13, December, 777-784.
Some Comments on "Time-Out as Punishment for Stuttering," Adams, Martin R.: 13, March, 218-220.
Some Dimensions of Auditory Language Comprehension in Aphasia, Goodglass, Harold, et al.: 13, September, 595-606.
Some Physiological Determinants to Autonomic Responsivity to Sound, Hogan, Donald H.: 13, March, 130-146.
Sound Pressure in Ear Canals Modified by Surgery, Melnick, William: 13, June, 400-417.
Speaking Fundamental Frequency Characteristics of Five- and Six-Year-Old Children with Mongolism, Weinberg, Bernd, and Marsha Zlatin: 13, June, 418-425.
Spectral Noise Levels and Roughness Severity Ratings for Normal and Simulated Rough Vowels Produced by Adult Females, Lively, Mary Ann, and Floyd W. Emanuel: 13, September, 503-517.
Spectral Noise Levels and Roughness Severity Ratings for Normal and Simulated Rough Vowels Produced by Adult Males, Sansone, Frank E., Jr., and Floyd W. Emanuel: 13, September, 489-502.
Speechreading and the Synthesis of Distorted Printed Sentences, Bode, Daniel L., et al.: 13, March, 115-121.
Speech Therapy and Language Recovery in Severe Aphasia, Sarno, Martha Taylor et al.: 13, September, 607-623.
Stimulus, Response, and Observer Variables in the Auditory Screening of Newborn Infants, Ling, Daniel, et al.: 13, March, 9-18.
Stress and Word Position as Determinants of Imitation in First-Language Learners, Blasdell, Richard, and Paul Jensen: 13, March, 193-202.
Stuttering and its Disappearance, Sheenan, Joseph G., and Margaret M. Martyn: 13, June, 279-289.
Temporal Patterns of Speech and Sample Size, Jaffe, Joseph, and Stephen Breskin: 13, September, 667-668.
Temporary Threshold Shift in Rock-and-Roll Musicians, Jerger, James, and Susan Jerger: 13, March, 221-224.
Use of Constructive Stress by Preschool Children, Hornby, Peter A., and Wilbur A. Hass: 13, June, 395-399.
Variable Bandwidth Masking for Automatic Audiometry, Arguimbau, L. B.: 13, December, 785-788.
Viewpoint: 1960-1970: A Decade of Research, Wingate, M. E.: 13, March, 5-8.
Viewpoint: Hearing Disorders and Hearing Science: Ten Years of Progress, Wright, H. N.: 13, June, 229-231.
Vowel Recognition Threshold as a Function of Temporal Segmentations, Powell, Richard L., and Oscar Tosi: 13, December, 000-000.
Warbled Tone Masking in Bone-Conduction Audiometry, Prather, William F., et al.: 13, June, 339-346.
Writedown Versus Talkback Scoring and Scoring Bias in Speech Discrimination Testing, Nelson, David A., and Joseph B. Chaiklin: 13, September, 645-654.

Hearing

ANATOMY AND PHYSIOLOGY

Evoked Cortical Responses to Stimulus Change, McCandless, Geary A., and Darrell E. Rose: 13, September, 624-634.

Habituation and Dishabituation of the Averaged Auditory Evoked Response, Webster, Bruce A.: 13, June, 387-394.

Middle Ear Impedance Measurements, Burke, Kenneth S., et al.: 13, June, 317-325.

Some Physiological Determinants to Autonomic Responsivity to Sound, Hogan, Donald H.: 13, March, 130-146.

Sound Pressure in Ear Canals Modified by Surgery, Melnick, William: 13, June, 400-417.

AUDIOLOGY

Acoustic Coupler Effects on Speech Audiometric Scores Using a CROS Hearing Aid, Jetty, Albert J., and William F. Rintelmann: 13, March, 101-114.

Articulatory Training of the Deaf Using Low-Frequency Surrogate Fricatives, Guttman, Newman, et al.: 13, March, 19-29.

Auditory Training and Speech Discrimination, Bode, Daniel L., and Herbert J. Oyer: 13, December, 839-855.

Comment on "Sociological and Psychological Factors Associated with Hearing Loss," Graunke, W. Lloyd: 13, June, 441-442.

Comparison of Sentence Identification and Conventional Speech Discrimination Scores, Speaks, Charles, et al.: 13, December, 755-767.

Comparison of Seven Systems for High-Frequency Aid-Conduction Audiometry, Myers, Cecil K., and J. Donald Harris: 13, June, 254-270.

Direct Measurement of Hearing-Impaired Children, Mira, Mary: 13, March, 65-73.

On the Distracting Properties of Competing Speech, Trammel, Jane L., and Charles Speaks: 13, June, 442-445.

Earmold Influence on Aided Speech Identification Tasks, Northern, Jerry L., and Karl W. Hattler: 13, March, 162-172.

Effect of the Earmold on Speech Intelligibility in Hearing Aid Use, Hodgson, William R., and Charles Murdock, Jr.: 13, June, 290-297.

Evoked Cortical Responses to Stimulus Change, McCandless, Geary A., and Darrell E. Rose: 13, September, 624-634.

Follow-up Report on Modified Earpieces and CROS for High-Frequency Hearing Losses, Dodds, Elizabeth, and Earl Harford: 13, March, 41-43.

Habituation and Dishabituation of the Averaged Auditory Evoked Response, Webster, Bruce A.: 13, June, 387-394.

Hearing Aid Efficiency in a Competing Speech Situation, Tillman, Tom W., Raymond Carhart, and Wayne O. Olsen: 13, December, 789-811.

The Intelligibility of Speech by Hearing Aids on Inductance Loop and Microphone Modes of Signal Reception, Vargo, Steven W., et al.: 13, March, 87-91.

Lipreading Performance as Related to Measurements of Vision, Hardick, Edward J., et al.: 13, March, 92-100.

Listener Preference for Selective vs Flat Amplification for a High-Frequency Hearing-Loss Population, Thompson, Gary, and Franz Lassman: 13, September, 670-672.

Low-Frequency Vowel Formant Discrimination in Hearing-Impaired Listeners, Pickett, J. M., and J. Mártony: 13, June, 347-359.

Measurement of Hearing Handicap, Speaks, Charles, et al.: 13, December, 768-776.

Measurement of Visual Speech Comprehension, Nielsen, Henning Birk: 13, December, 856-860.

Middle Ear Impedance Measurements, Burke, Kenneth S., et al.: 13, June, 317-325.

Narrow-Band Noise Audiometry for Hard-to-Test Patients, Sanders, Jay W., and Anne Forrest Josey: 13, March, 74-81.

The Occlusion Effect in Unilateral Functional Hearing Loss, Thompson, Gary, and Marie Denman: 13, March, 37-40.
The Organization of Behavior, Eisenberg, Rita B.: 13, September, 453-471.
Perception of Simultaneous Dichotic and Monotic Monosyllables, Berlin, Charles I., et al.: 13, December, 812-822.
Perstimulatory Tracking in Pitch Perception by Subjects with Sensorineural Hearing Loss, Skinner, Paul, and Frank Antinoro: 13, September, 518-525.
A Picture Identification Test for Hearing-Impaired Children, Ross, Mark, and Jay Lerman: 13, March, 44-53.
Reaction Time for Pediatric Audiometry, Rapin, Isabelle, and Peter Steinherz: 13, March, 203-217.
Speechreading and the Synthesis of Distorted Printed Sentences, Bode, Daniel L., et al.: 13, March, 115-121.
Sensorineural Hearing Loss and Upward Spread of Masking, Martin, Ellen S., and J. M. Pickett: 13, June, 426-437.
Some Psychological Determinants to Autonomic Responsivity to Sound, Hogan, Donald H.: 13, March, 130-146.
Sound Pressure in Ear Canals Modified by Surgery, Melnick, William: 13, June, 400-417.
Stimulus, Response, and Observer Variables in the Auditory Screening of Newborn Infants, Ling, Daniel, et al.: 13, March, 9-18.
Temporary Threshold Shift in Rock-and-Roll Musicians, Jerger, James, and Susan Jerger: 13, March, 221-224.
Variable Bandwidth Masking for Automatic Audiometry, Arguimbau, L. B.: 13, December, 785-811.
Viewpoint: Hearing Disorders and Hearing Science: Ten Years of Progress, Wright, H. N.: 13, June, 229-231.
Warbled Tone Masking in Bone-Conduction Audiometry, Prather, William F., et al.: 13, June, 339-346.
Writedown Versus Talkback Scoring and Scoring Bias in Speech Discrimination Testing, Nelson, David A., and Joseph B. Chaiklin: 13, September, 645-654.

DEAFNESS

Articulatory Training of the Deaf Using Low-Frequency Surrogate Fricatives, Guttman, Newman, et al.: 13, March, 19-29.
Coding Medium and Word Recall by Deaf and Hearing Subjects, Odom, Penelope B., et al.: 13, March, 54-58.
Comment on "Sociological and Psychological Factors Associated with Hearing Loss," Graunke, W. Lloyd: 13, June, 441-442.
Experiments on the Use of Touch-Tone® Telephone as a Communication Aid for the Deaf, Nelson, John R.: 13, March, 30-36.

PSYCHOACOUSTICS

Comparison of Sentence Identification and Conventional Speech Discrimination Scores, Speaks, Charles, et al.: 13, December, 755-767.
On the Distracting Properties of Competing Speech, Trammel, Jane L., and Charles Speaks: 13, June, 442-445.
Effect of the Earmold on Speech Intelligibility in Hearing Aid Use, Hodgson, William R., and Charles Murdock, Jr.: 13, June, 290-297.
Effect of Stimulus Duration on Localization of Direction of Noise Stimuli, Thurlow, Willard R., and James R. Mergener: 13, December, 826-838.
Evoked Cortical Responses to Stimulus Change, McCandless, Geary A., and Darrell E. Rose: 13, September, 624-634.
The Intelligibility of Speech by Hearing Aids on Inductance Loop and Microphone Modes of Signal Reception, Vargo, Steven W., et al.: 13, March, 87-91.
Low-Frequency Vowel Formant Discrimination in Hearing-Impaired Listeners, Pickett, J. M., and J. Mártony: 13, June, 347-359.
Perception of Simultaneous Dichotic and Monotic Monosyllables, Berlin, Charles I., et al.: 13, December, 812-822.

Perstimulatory Tracking in Pitch Perception by Subjects with Sensorineural Hearing Loss, Skinner, Paul and Frank Antinoro: 13, September, 518-525.
The Relative Ability of Aphasic Persons to Judge the Duration and Intensity of Pure Tones, Needham, Ellen C., and John W. Black: 13, December, 725-730.
Sensorineural Hearing Loss and Upward Spread of Masking, Martin, Ellen S., and J. M. Pickett: 13, June, 426-437.
Viewpoint: Hearing Disorders and Hearing Science: Ten Years of Progress, Wright, H. N.: 13, June, 229-231.
Writedown Versus Talkback Scoring and Scoring Bias in Speech Discrimination Testing, Nelson, David A., and Joseph B. Chaiklin: 13, September, 645-654.

Language

Aphasia

Effects of Simultaneous and Successive Stimulus Presentation on Visual Discrimination by Aphasic Patients, Engmann, Deedra L., and Robert H. Brookshire: 13, June, 369-381.
Phonemic Variability in Apraxia of Speech, Johns, Donnell F., and Frederic L. Darley: 13, September, 556-583.
The Relative Ability of Aphasic Persons to Judge the Duration and Intensity of Pure Tones, Needham, Ellen C., and John W. Black: 13, December, 725-730.
Some Dimensions of Auditory Language Comprehension in Aphasia, Goodglass, Harold, et al.: 13, September, 595-606.
Speech Therapy and Language Recovery in Severe Aphasia, Sarno, Martha Taylor, et al.: 13, September, 607-623.

Language Development

Comment on "Language Deficiency of Disadvantaged Children," Holland, Audrey: 13, June, 440-441.
Comment on "A Standardized Method for Obtaining a Spoken Language Sample," Griffith, Jerry: 13, June, 438-439.
Latency of Echoic Verbal Responses by Three-Year-Old Children, Saxman, John H., and Warren H. Fay: 13, June, 232-238.
Reassembly of Segmented CVC Syllables by Children, Shriner, Thomas H., and Raymond G. Daniloff: 13, September, 537-547.
Relationship Between Reading and Selected Auditory Abilities of Third Grade Children, Flynn, Pauline T., and Margaret C. Byrne: 13, December, 731-740.
Speaking Fundamental Frequency Characteristics of Five- and Six-Year-Old Children with Mongolism, Weinberg, Bernd: 13, June, 418-425.
Stress and Word Position as Determinants of Imitation in First-Language Learners, Blasdell, Richard, and Paul Jensen: 13, March, 193-202.
Temporal Patterns of Speech and Sample Size, Jaffe, Joseph, and Stephen Breskin: 13, September, 667-668.
Use of Contrastive Stress by Preschool Children, Hornby, Peter A., and Wilbur A. Hass: 13, June, 395-399.

Speech

Anatomy and Physiology

EMG of Pharyngoesophageal Musculature During Alaryngeal Voice Production, Shipp, Thomas: 13, March, 184-192.
Laryngeal Correlates of Frequency Change: A STROL Study, Hollien, Harry, and Robert F. Coleman: 13, June, 271-278.

Lateral Pharyngeal Wall Movement During Speech Production, Minifie, Fred D., et al.: 13, September, 584-594.
Nasal Airflow Characteristics During Speech in Prosthetically Managed Cleft Palate Speakers, Lubker, James F., et al.: 13, June, 326-338.
Sensitivity of the Tongue to Electrical Stimulation, Pleasonton, Anna K.: 13, September, 635-644.

ARTICULATION DISORDERS

Articulatory Training of the Deaf Using Low-Frequency Surrogate Fricatives, Guttman, Newman, et al.: 13, March, 19-29.
Comment on "The Relationship Between Articulatory Deficits and Syntax in Speech Defective Children, McNutt, James C., and Robert A. Keenan: 13, September, 669-670.
Consistency of Judgments of Articulatory Productions, Irwin, Ruth Beckey: 13, September, 548-555.
Factors in the Effectiveness of Articulation Therapy with Educable Retarded Children, Sommers, Ronald K., et al.: 13, June, 304-316.
Psychological Correlates of Speech Characteristics: On Sounding "Disadvantaged," Williams, Frederick: 13, September, 472-488.
A Revised List for the Estimation of Dysarthric Single Word Intelligibility, Tikofsky, Ronald S.: 13, March, 59-64.
The Role of Practice and the Observation of Practice in Speech-Sound Discrimination Learning, Ritterman, Stuart L.: 13, March, 178-183.

SPEECH AND VOICE SCIENCE

A Comparison of the Results of Pressure Articulation Testing in Various Contexts for Subjects with Cleft Palates, Van Demark, D. R.: 13, December, 741-754.
Consistency of Judgments of Articulatory Productions, Irwin, Ruth Becky: 13, September, 548-555.
Laryngeal Correlates of Frequency Change: A STROL Study, Hollien, Harry, and Robert F. Coleman: 13, June, 271-278.
Laterality Differences in the Auditory Feedback Control of Speech, Abbs, James H., and Karl U. Smith: 13, June, 298-303.
Lateral Pharyngeal Wall Movement During Speech Production, Minifie, Fred D., et al.: 13, September, 584-594.
Lip and Jaw Coarticulation for the Phoneme /æ/, Amerman, James D., et al.: 13, March, 147-161.
The Oral Assessment of Object Size, Dellow, P. G., et al.: 13, September, 526-536.
Parkinson's Disease: Speech Disorder and Released Infantile Oroneuromotor Activity, Morrison, Eleanor B., et al.: 13, September, 655-666.
Phonemic Variability in Apraxia of Speech, Johns, Donnell F., and Frederic L. Darley: 13, September, 556-583.
Power Spectral Density Measurements of Oral and Whispered Speech, Schwartz, Martin F.: 13, June, 445-446.
Reassembly of Segmented CVC Syllables by Children, Shriner, Thomas H., and Raymond G. Daniloff: 13, September, 537-547.
A Revised List for the Estimation of Dysarthric Single Word Intelligibility, Tikofsky, Ronald S.: 13, March, 59-64.
Sensitivity of the Tongue to Electrical Stimulation, Pleasonton, Anna K.: 13, September, 635-644.
Speaking Fundamental Frequency Characteristics of Five- and Six-Year-Old Children with Mongolism, Weinberg, Bernd: 13, June, 418-425.
Spectral Noise Levels and Roughness Ratings for Normal and Simulated Rough Vowels Produced by Adult Females, Lively, Mary Ann, and Floyd W. Emanuel: 13, September, 503-517.
Spectral Noise Levels and Roughness Severity Ratings for Normal and Simulated Rough Vowels Produced by Adult Males, Sansone, Frank E., Jr., and Floyd W. Emanuel: 13, September, 489-502.

Stress and Word Position as Determinants of Imitation in First-Language Learners, Blasdell, Richard, and Paul Jensen: 13, March, 193-202.
Temporal Patterns of Speech and Sample Size, Jaffe, Joseph, and Stephen Breskin: 13, September, 667-668.
Vowel Recognition Threshold as a Function of Temporal Segmentations, Powell, Richard L., and Oscar Tosi: 13, December, 715-724.

STUTTERING

Anchoring and Sequence Effects for the Category Scaling of Stuttering Severity, Young, Martin A.: 13, June, 360-368.
Comment on "Ephphatha, or Some Advice to Stammerers," Weiss, Deso A.: 13, June, 439.
Course of Nonstutterers' Disfluency Adaptation During 15 Consecutive Readings of the Same Material, Silverman, Franklin H.: 13, June, 382-386.
The Effects of Delayed Auditory Feedback on a Speech-Related Task in Stutterers, Stark, Rachel E., and Bruce R. Pierce: 13, June, 245-253.
Effect on Stuttering of Changes in Audition, Wingate, M. E.: 13, December, 861-873.
The Effect of the Verbal Stimulus Words *Wrong, Right* and *Tree* on the Disfluency Rates of Stutterers and Nonstutterers, Cooper, Eugene B., et al.: 13, June, 239-244.
An Experimental Analogue of the Anxiety-Stuttering Relationship, Toomey, George L., and Murray Sidman: 13, March, 122-129.
Decrease in Stuttering Frequency as a Function of Continuous and Contingent Forms of Auditory Masking, Webster, Ronald L., and Michael F. Dorman: 13, March, 82-86.
Distribution of Instances of Disfluency in Consecutive Readings of Different Passages by Nonstutterers, Silverman, Franklin R.: 13, December, 874-882.
A Note on the Degree of Adaptation by Stutterers and Nonstutterers During Oral Reading, Silverman, Franklin H.: 13, March, 173-177.
Punishment, Stuttering, and Disfluency, Siegel, Gerald M.: 13, December, 677-714.
Re: The Computation of the Consistency Effect in Stuttering, Gruber, Leslie: 13, September, 668-669.
Some Comments on "Time-Out as Punishment for Stuttering", Adams, Martin R.: 13, March, 218-220.
Stuttering and its Disappearance, Sheenan, Joseph G., and Margaret M. Martyn: 13, June, 279-289.
Viewpoint: 1960-1970: A Decade of Research, Wingate, M. E.: 13, March, 5-8.

VOICE DISORDERS

Parkinson's Disease: Speech Disorder and Released Infantile Oroneuromotor Activity, Morrison, Eleanor B., et al.: 13, September, 655-666.

OTHER

A Comparison of the Results of Pressure Articulation Testing in Various Contexts for Subjects with Cleft Palates, Van Demark, D. R.: 13, December, 741-754.
Comparison of the Two Approaches to Behavioral Observation Audiometry, Weber, Bruce A.: 13, December, 823-825.
Nasal Airflow Characteristics During Speech in Prosthetically Managed Cleft Palate Speakers, Lubker, James F., et al.: 13, June, 326-338.
The Maintenance of Diagnostic Information Imparted by Three Methods: One Year Later, Marshall, Nancy R., and Steven G. Goldstein: 13, June, 447-448.
Relationship Between Reading and Selected Auditory Abilities of Third Grade Children, Flynn, Pauline T., and Margaret C. Byrne: 13, December, 731-740.
The Significance of Intra- and Intersentence Pause Times in Perceptual Judgments of Oral Reading Rate, Lass, Norman J.: 13, December, 777-784.
